## **INDEPENDENT AUDITORS' REPORT**

Honorable Mayor and Members of the City Council  
City of West Lake Hills, Texas

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of West Lake Hills, Texas (the "City") as of and for the year ended September 30, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditors' Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial statements contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of September 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

***Other Matters***

*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis section be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated January 23, 2015 on our consideration of the City’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City’s internal control over financial reporting and compliance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

**CITY OF WEST LAKE HILLS, TEXAS  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR END SEPTEMBER 30, 2014**

As management of the City of West Lake Hills, Texas, (the "City") we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2014. Please read it in conjunction with the independent auditors' report on page 1 and the City's basic financial statements which follow this section.

**Financial Highlights**

- The assets of the City exceeded its liabilities at the close of the most recent fiscal year by \$11,570,465 (*total net position*). Of this amount, \$7,699,866 represents unrestricted net position, which may be used to meet the government's ongoing obligations to citizens and creditors.
- The City's total net position decreased during the year by \$103,022, related primarily to expenditures for a road expansion project.
- At the close of the current fiscal year, the City's General Fund reported a fund balance of \$7,761,355, a decrease of \$282,020 in comparison with the prior year.
- At the end of the current fiscal year, the City's Wastewater Fund reported a net position of \$1,433,745, and increase of \$135,534 in comparison with the prior year.

**Overview of the Financial Statements**

The discussion and analysis provided here are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) the notes to financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

**Government-wide Financial Statements.** The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* presents financial information on all of the City's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, public safety, public works, and sanitation. The business-type activities of the City include a wastewater utility operation.

**CITY OF WEST LAKE HILLS, TEXAS  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR END SEPTEMBER 30, 2014**

The government-wide financial statements can be found on pages 10-11 of this report.

**Fund Financial Statements.** A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

**Governmental Funds.** *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City adopts an annual appropriated budget for all funds. A budgetary comparison schedule has been provided within this report for the General Fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 12-15 of this report and the General Fund's budget to actual statement is presented on page 16.

**Proprietary Funds.** The City has the option of maintaining two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses an enterprise fund to account for its wastewater utility operation. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among a City's functions. The City is not currently utilizing an internal service fund.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide information for the wastewater utility, which is considered to be a major fund of the City.

The basic proprietary fund financial statements can be found on pages 17-19 of this report.

**CITY OF WEST LAKE HILLS, TEXAS  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR END SEPTEMBER 30, 2014**

**Notes to the Financial Statements.** The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements.

The notes to the financial statements can be found on pages 20-36 of this report.

**Other Information.** In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* concerning the City's progress in funding its obligation to provide pension benefits to its employees.

Required supplementary information can be found on page 37 of this report.

**Government-wide Overall Financial Analysis**

As noted earlier, net position over time, may serve as a useful indicator of a government's financial position. In the case of the City, assets for governmental activities exceeded liabilities by \$10,136,720 at the close of the most recent fiscal year and assets for business-type activities exceeded liabilities by \$1,433,745.

**City of West Lake Hills, Texas's Net Position**

**CITY OF WEST LAKE HILLS, TEXAS  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR END SEPTEMBER 30, 2014**

By far, the largest portion of the City's net position (67%) is its unrestricted balance. The next largest balance is its net investment in capital assets at (32%). The City uses these capital assets to provide a variety of services to its citizens. Accordingly, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources used to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position (1%) represents resources that are subject to external restrictions on how they may be used. The unrestricted balance of \$7,699,866 may be used to meet the government's ongoing obligations to its citizens and creditors. At the end of the current fiscal year, the City is able to report positive balances in all reported categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities.

The City's overall net position did decrease by \$103,022 from the prior fiscal year. The reasons for this overall decrease are discussed in the following sections for governmental activities and business-type activities.

**Governmental Activities.** During the current fiscal year, net position for governmental activities decreased by \$238,556 from the prior fiscal year for an ending balance of \$10,136,720. The decrease is attributed to expenses related to acquiring land and rights of way related to a road expansion project.

**City of West Lake Hills, Texas's Changes in Net Position**

	Governmental Activities 2014	Governmental Activities 2013	Change	Business- Type Activities 2014	Business- Type Activities 2013	Change

Net position - ending	\$ 10,136,720	\$ 10,375,276	\$ (238,556)	\$ 1,433,745	\$ 1,298,211	\$ 135,534

**CITY OF WEST LAKE HILLS, TEXAS  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR END SEPTEMBER 30, 2014**

**Business-type Activities.** For the City's business-type activities, the results for the current fiscal year were positive in that overall net position increased to reach an ending balance of \$1,433,745. The total increase in net position for business-type activities (wastewater operations) was \$135,534. The increase is attributed in part to higher than expected impact fee revenues.

**Financial Analysis of Governmental Funds**

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds.** The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the City itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the City's governing council.

At September 30, 2014, the City's General Fund reported a fund balance of \$7,761,355, a decrease of \$282,020 in comparison with the prior year. Of this amount, 98% constitutes *unrestricted fund balance*, which is available for spending at the government's discretion. The decrease in fund balance is primarily due to ongoing expenditures for a road expansion project.

As a measure of the General Fund's liquidity, it may be useful to compare total fund balance to total General Fund expenditures. Total fund balance represented approximately 136% of total General Fund expenditures for the current year.

**Proprietary Funds.** The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the Wastewater Fund at the end of the year was \$377,566. This reflects an increase in total net position of \$135,534.

**General Fund Budgetary Highlights**

**Original budget compared to final budget.** During the year significant budget amendments were made to increase General Fund sales tax revenues by approximately \$643,000 due to higher than expected collections as the year progressed. Also, general government expenditures were amended upward by approximately \$990,000 related to a road expansion project.

**Capital Assets and Debt Administration**

**Capital assets.** The City's total investment in capital assets for its governmental and business-type activities as of September 30, 2014, amounts to \$19,558,502 machinery, equipment, vehicles, and the wastewater system.

**CITY OF WEST LAKE HILLS, TEXAS  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR END SEPTEMBER 30, 2014**

**City of West Lake Hills - Capital Assets**

	Governmental Activities 2014	Governmental Activities 2013	Change
Land	\$ 398,411	\$ 398,411	\$ -
Buildings	1,283,695	1,267,475	16,220
Furniture and Equipment	1,698,178	1,617,880	80,298
Infrastructure	1,688,479	1,386,790	301,689
Total	<u>5,068,763</u>	<u>4,670,556</u>	<u>398,207</u>
Less Accumulated Depreciation	<u>(2,406,440)</u>	<u>(2,123,987)</u>	<u>(282,453)</u>
Capital Assets, Net of Depreciation	<u>\$ 2,662,323</u>	<u>\$ 2,546,569</u>	<u>\$ 115,754</u>

	Business-type Activities 2014	Business-type Activities 2013	Change
Land	\$ 420,000	\$ 420,000	\$ -
Wastewater System	17,625,283	17,218,902	406,381
Total	<u>18,045,283</u>	<u>17,638,902</u>	<u>406,381</u>
Less Accumulated Depreciation	<u>(1,149,104)</u>	<u>(573,963)</u>	<u>(575,141)</u>
Capital Assets, Net of Depreciation	<u>\$ 16,896,179</u>	<u>\$ 17,064,939</u>	<u>\$ (168,760)</u>

Additional information on the City's capital assets can be found in Note IV. D on pages 29-30 of this report.

**Long-term Debt.** At the end of the current fiscal year, the City had long-term obligations of \$16,131,016. Of this amount, \$279,085 represents the City's liability for compensated absences earned by employees as of year end and \$11,931 represents the City's net pension obligation related to employee pensions with the Texas Municipal Retirement System. The remaining \$15,840,000 represents bonds payable within the Wastewater Fund for infrastructure financing.

**City of West Lake Hills - Outstanding Debt and Other Liabilities**

	Governmental Activities 2014	Governmental Activities 2013	Change
Compensated Absences	\$ 279,085	\$ 209,030	\$ 70,055
Net Pension Obligation	11,931	12,538	(607)
Total	<u>\$ 291,016</u>	<u>\$ 221,568</u>	<u>\$ 69,448</u>

**CITY OF WEST LAKE HILLS, TEXAS  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR END SEPTEMBER 30, 2014**

	Business-type Activities 2014	Business-type Activities 2013	Change
Revenue Bonds	\$ 15,840,000	\$ 16,035,000	\$ (195,000)
Total	\$ 15,840,000	\$ 16,035,000	\$ (195,000)

The City's bonds payable decreased by \$195,000 during the current fiscal year. The reason for the decrease was the principal payment made during the year on the Wastewater Fund's bonds.

Additional information on the City's long-term debt can be found in Note IV. H on pages 34-36 of this report.

**Economic Factors and Next Year's Budget**

The City's elected and appointed officials considered many factors when setting the fiscal year 2014/2015 budget. The City adopted a General Fund budget for 2015 with expenditures totaling \$5,650,149. This represents an approximately 5% decrease over the prior year's General Fund final amended budget.

**Requests for Information**

This financial report is designed to provide a general overview of the City of West Lake Hill's finances for all those with an interest. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Wendy Bates, Finance Officer, City of West Lake Hills, 911 Westlake Drive, West Lake Hills, Texas 78746-4599 or call (512) 327-3628. Financial information is also available on the City's website at [www.westlakehills.org](http://www.westlakehills.org).

CITY OF WEST LAKE HILLS, TEXAS  
 RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES,  
 EXPENDITURES, AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES  
 FOR THE YEAR ENDED SEPTEMBER 30, 2014

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ (282,020)
--	--------------

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense in the current period.	115,754
--	---------

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(2,842)
--	---------

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	(69,448)
--	----------

Net change in fund balances - total governmental activities	<u><u>\$ (238,556)</u></u>
---	----------------------------

The notes to the financial statements are an integral part of this statement.

NOTES TO THE FINANCIAL STATEMENTS

**CITY OF WEST LAKE HILLS, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2014**

**I. Summary of significant accounting policies**

**A. Description of government-wide financial statements**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support.

**B. Reporting entity**

The City of West Lake Hills, Texas (the “City”) was founded and incorporated as a village on September 9, 1953. The City Council (the “Council”), a six member group, has governance responsibilities over all activities related to the City. The Council is elected by the public and has the exclusive power and duty to govern and oversee the management of the City. The City receives funding from local, state, and federal government sources and must comply with the requirements of those funding entities.

The City’s primary activities include police protection, court and general administrative services, public works, and wastewater service.

The City is an independent political subdivision of the State of Texas governed by an elected council and a mayor; and, is considered a primary government. As required by generally accepted accounting principles, these basic financial statements have been prepared based on the considerations regarding the potential for inclusion of other entities, organizations, or functions as part of the City’s financial reporting entity. No other entities have been included in the City’s reporting entity. Additionally, as the City is considered a primary government for financial reporting purposes, its activities are not considered a part of any other governmental or other type of reporting entity.

**C. Basis of presentation – government-wide financial statements**

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the government’s enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

**D. Basis of presentation – fund financial statements**

The fund financial statements provide information about the government’s funds, including its fiduciary funds and blended component units. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds, as applicable. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

**CITY OF WEST LAKE HILLS, TEXAS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED SEPTEMBER 30, 2014**

**D. Basis of presentation – fund financial statements (continued)**

The government reports the following major governmental fund:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.

The government reports the following major enterprise fund:

The *Wastewater Fund* accounts for the revenues, expenses, and residual equity related to the operation of the City's wastewater services.

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds or advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

**E. Measurement focus and basis of accounting**

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

**CITY OF WEST LAKE HILLS, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2014**

**E. Measurement focus and basis of accounting (continued)**

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). All other revenue items are considered to be measurable and available only when cash is received by the government.

Proprietary activities are reported using the *economic resources measurement focus* and the *accrual basis of accounting*.

**F. Budgetary information**

***1. Budgetary basis of accounting***

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all funds. Currently, the City does not utilize any other funds which are not aggregated with the General Fund or the Wastewater Fund for reporting purposes.

The appropriated budgets are prepared by fund and department. The government's department heads may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of the council. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level.

Appropriations in all budgeted funds lapse at the end of the fiscal year even if they have related encumbrances. Encumbrances are commitments related to unperformed (executory) contracts for goods or services (i.e., purchase orders, contracts, and commitments). Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. While all appropriations and encumbrances lapse at year end, valid outstanding encumbrances (those for which performance under the executory contract is expected in the next year) are re-appropriated and become part of the subsequent year's budget pursuant to state regulations.

**CITY OF WEST LAKE HILLS, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2014**

***2. Excess of expenditures over appropriations***

For the year ended September 30, 2014, expenditures did not exceed appropriations in the City's General Fund.

**G. Assets, liabilities, deferred outflows/inflows, and net position/fund balance**

***1. Cash and cash equivalents***

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

***2. Investments***

Investments for the government are reported at fair value (generally based on quoted market prices) except for positions in local government investment pools like, Lone Star, when applicable. In accordance with state law, these investment pools operate in conformity with all of the requirements of the Securities and Exchange Commission's (SEC) Rule 2a7 as promulgated under the Investment Company Act of 1940, as amended. Accordingly, the pools qualify as 2a7-like pools and are reported at the net asset value per share (which approximates fair value) even though it is calculated using the amortized cost method. The pools are subject to regulatory oversight by the State Treasurer, although it is not registered with the SEC.

***3. Inventories and prepaid items***

The City does not report inventories of supplies or consumable items due to the unused amount of these items on hand at any given time being immaterial. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

***4. Capital assets***

Capital assets, which include property, plant, equipment, and infrastructure assets e.g. roads, bridges, sidewalks, and similar items, are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets, except for infrastructure assets, are defined by the government as assets with an initial, individual cost of more than \$300 and an estimated useful life of more than one year.

As the government constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or increase its estimated useful life. Donated capital assets are recorded at their estimated fair value at the date of donation.

**CITY OF WEST LAKE HILLS, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2014**

**4. Capital assets (continued)**

Land and construction in progress are not depreciated. The other property, plant, equipment, and infrastructure of the primary government are depreciated using the straight line method over the following estimated useful lives (in years):

Capital asset classes	Lives
Buildings	40
Machinery and equipment	3-15
Vehicles	2-5
Improvements	10-30
Infrastructure/Wastewater system	20-30

**5. Deferred outflows/inflows of resources**

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/ expenditure) until then. The government currently does not have any financial transactions that qualify for reporting in this category. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The government currently does not have any financial transactions that qualify for reporting in this category.

**6. Net position flow assumption**

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government’s policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

**7. Fund balance flow assumptions**

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government’s policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

**CITY OF WEST LAKE HILLS, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2014**

***8. Fund balance policies***

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance). The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The governing council is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation. Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

**H. Revenues and expenditures/expenses**

***1. Program revenues***

Amounts reported as *program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

***2. Property taxes***

Property taxes are levied October 1 of each year, are due upon receipt of the City's tax bill and become delinquent on February 1 of the following year.

***3. Compensated absences***

The City maintains formal programs for vacation, holiday and sick leave. The City's personnel policy provides employees with annual vacation, holiday and sick leave after satisfactory completion of their six month probationary period. Temporary employees, after six months of employment, also receive paid vacation time in proportion to hours worked (based on a 40 hour workweek). Paid vacations are earned as follows: one to ten years of service receive 96 hours with a maximum accrual of 192 hours, 11 to 20 years of service receive 120 hours with a maximum accrual of 240 hours, and 21 or more years of service receive 144 hours with maximum accrual of 288 hours. On September 1, all unused vacation time in excess of maximum accruals will be cancelled. Sick leave for permanent employees is earned at the rate of one working day for each full month of continuous service. Sick leave may be accumulated to a maximum of 288 hours. On September 1 of each fiscal year all accumulated sick leave in excess of maximum accrual will be cancelled. Paid holidays are determined by the City, and currently may be accrued if the employee is required to work on said holiday. Upon termination, the City will pay the employee for properly accrued vacation, comp and holiday hours as well as one half of accrued sick leave.

**CITY OF WEST LAKE HILLS, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2014**

**3. Compensated absences (continued)**

As a result, the City has accrued a liability for compensated absences in the amount of \$279,085.

**4. Proprietary funds operating and nonoperating revenues and expenses**

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund’s principal ongoing operations. The principal operating revenues of the wastewater fund are charges to customers for sales and services. The wastewater fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

**II. Reconciliation of government-wide and fund financial statements**

**A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position**

The governmental fund balance sheet includes reconciliation between *fund balance – total governmental funds* and *net position – governmental activities* as reported in the government- wide statement of net position. Items shown in summary form on that reconciliation are provided in detail below.

One element of that reconciliation explains that “capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.” The details of this amount are as follows:

**Detail of Capital Asset Reconciling Items:**

Capital assets not being depreciated:	
Land	\$ 398,411
Buildings and improvements	1,283,695
Machinery, equipment, and vehicles	1,698,178
Infrastructure	1,688,479
Accumulated depreciation	(2,406,440)
	<hr/>
Net adjustment to increase <i>fund balance - total governmental funds</i> to arrive at <i>net position - governmental activities</i>	\$ 2,662,323
	<hr/> <hr/>

The details of the long-term debt reconciliation are as follows:

**Detail of Long-Term Debt Reconciling Items:**

Compensated absences	(279,085)
Net pension obligation	(11,931)
	<hr/>
Net adjustment to reduce <i>fund balance - total governmental funds</i> to arrive at <i>net position - governmental activities</i>	\$ (291,016)
	<hr/> <hr/>

**CITY OF WEST LAKE HILLS, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2014**

**B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities**

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. Items shown in summary form on that reconciliation are provided in detail below.

One element of that reconciliation explains that “governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense in the current period.” The details of this amount are as follows:

**Detail of Capital Outlay and Depreciation Expense Items:**

Capital outlay	\$ 467,739
Depreciation expense	(351,985)
Net adjustment to increase <i>net changes in fund balance - total governmental funds</i> to arrive at <i>changes in net position of governmental activities</i>	\$ 115,754

The details of the long-term debt reconciliation are as follows:

**Detail of Long-Term Debt Revenue/Expense Items:**

Debt issued or incurred:	
Change in compensated absences	(70,055)
Change in net pension obligation	607
Net adjustment to decrease <i>changes in fund balances - total governmental funds</i> to arrive at <i>changes in net position of governmental activities</i>	\$ (69,448)

**III. Stewardship, compliance and accountability**

**A. Violations of legal or contractual provisions**

No violations of legal or contractual provisions were noted during the current year.

**B. Deficit fund equity**

For the year ended September 30, 2014 there were no funds reported with deficit fund equity.

**CITY OF WEST LAKE HILLS, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2014**

**IV. Detailed notes on all activities and funds**

**A. Cash deposits with financial institutions**

*Custodial credit risk-deposits.* In the case of deposits, this is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The City addresses this risk by ensuring that deposits are insured by FDIC and pledged security coverage. As of September 30, 2014, the government's bank balance was \$8,731,641 all of which was insured and collateralized with securities held by the pledging or financial institution's trust department or agent, but not in the government's name.

**B. Investments**

The City currently holds balances with Lone Star, a government investment pool operated in the State of Texas. Lone Star's funds have a credit rating of AAA from Standard & Poor's Financial Services. Local government investment pools in this rating category meet the highest standards for credit quality, have conservative investment policies, and provide for safety of principal. Lone Star's investments are governed by the Public Funds Investment Act (PFIA), Chapter 2256 of the Texas Government Code. State statutes authorize the government to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements, and government investment pools.

As of September 30, 2014, the balances held with Lone Star were classified as cash and cash equivalents.

*Interest rate risk.* In accordance with its investment policy, the government manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to less than ten months.

*Credit risk.* State law limits investments in commercial paper and corporate bonds to the top two ratings issued by nationally recognized statistical rating organizations (NRSROs). It is the government's policy to limit its investments in these investment types to the top rating issued by NRSROs. As of September 30, 2014, the government's balance held with Lone Star was rated AAA by Standard & Poor's.

*Concentration of credit risk.* The government's investment policy does not allow for an investment in any one issuer that is in excess of 5 percent of the government's total investments. This restriction however does not apply to government investment pools due to the low risk nature of this type of investment.

*Custodial credit risk-investments.* For an investment, this is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

**CITY OF WEST LAKE HILLS, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2014**

**C. Receivables**

In some instances the City's receivable amounts are presented in aggregate. Below is a detail of the City's receivable balances, both governmental and proprietary fund amounts, and related allowances, if applicable.

**Governmental Funds**

<u>Receivables</u>	General Fund
Sales tax	\$ 537,382
Property tax	20,621
Other	52,452
Gross receivables	<u>610,455</u>
Less: allowance for uncollectibles related to property tax receivable	(12,227)
Net receivables	<u><u>\$ 598,228</u></u>

**Proprietary Funds**

<u>Receivables</u>	Wastewater
Accounts receivable	\$ 139,634
Other receivable	6,680
Gross receivables	<u>146,314</u>
Less: Allowance for uncollectibles	(2,202)
Net receivables	<u><u>\$ 144,112</u></u>

**D. Capital Assets**

Depreciation expense was charged to the functions/programs of the governmental activities of the primary government as follows:

**Governmental activities:**

General government	\$ 147,095
Public safety	121,087
Public works	83,803
Total depreciation expense - governmental activities	<u><u>\$ 351,985</u></u>

**CITY OF WEST LAKE HILLS, TEXAS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED SEPTEMBER 30, 2014**

**D. Capital Assets (continued)**

Capital assets activity for the City for the year ended September 30, 2014, was as follows:

**Governmental Activities:**

	Balance 10/1/13	Increases	Decreases	Balance 9/30/14

**CITY OF WEST LAKE HILLS, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2014**

**E. Pension obligations**

Texas Municipal Retirement System (TMRS)

Plan Description

The City provides pension benefits for all of its eligible employees through a nontraditional, joint contributory, hybrid defined benefit plan in the state-wide, Texas Municipal Retirement System (TMRS), an agent multiple-employer public employee retirement system. The plan provisions that have been adopted by the City are within the options available in the governing statutes of TMRS.

TMRS issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information (RSI) for TMRS; the report also provides detailed explanations of the contributions, benefits and actuarial methods and assumptions used by the System. This report may be obtained from TMRS' website at [www.TMRS.com](http://www.TMRS.com).

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS. Plan provisions for the City were as follows:

	Plan Year 2013	Plan Year 2014
Employee Deposit Rate	7%	7%
Matching Ratio (City to Employee)	2 to 1	2 to 1
Years Required for Vesting	10	10
Service Retirement Eligibility (Expressed as Age/Years of Service)	60/10, 0/25	60/10, 0/25
Updated service credit	100% Repeating, Transfers	100% Repeating, Transfers
Annuity increase (to retirees)	70% of CPI Repeating	70% of CPI Repeating

Contributions

Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) cost method (EAN was first used in the December 31, 2013 valuation; previously, the Projected Unit Credit actuarial cost method had been used). This rate consists of the normal cost contribution rate and the prior service cost contribution rate, which is calculated to be a level percent of payroll from year to year. The normal cost contribution rate for an employee is the contribution rate which, if applied to a member's compensation throughout their period of anticipated covered service with the municipality, would be sufficient to meet all benefits payable on their behalf. The salary-weighted average of the individual rates is the total normal cost rate. The prior service contribution rate amortizes the unfunded (overfunded) actuarial liability (asset) over the applicable period for that city. Both the normal cost and prior service contribution rates include recognition of the projected impact of annually repeating benefits, such as Updated Service Credits and Annuity Increases.

The City contributes to the TMRS Plan at an actuarially determined rate. Both the employees and the City make contributions monthly. Since the City needs to know its contribution rate in advance for budgetary purposes, there is a one-year delay between the actuarial valuation that serves as the basis for the rate and the calendar year when the rate goes into effect (i.e., the December 31, 2013 valuation will determine the contribution rate beginning January 1, 2015).

**CITY OF WEST LAKE HILLS, TEXAS**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED SEPTEMBER 30, 2014**

The annual pension cost and the net pension obligation (asset) are as follows:

Annual Required Contribution (ARC)	\$ 221,488
Interest on Net Pension Obligation	878
Adjustment to the ARC	(789)
Annual Pension Cost (APC)	221,577
Contributions Made	(222,184)
Increase (decrease) in Net Pension Obligation	(607)
Net Pension Obligation/(Asset), Beginning of Year	12,538
Net Pension Obligation/(Asset), End of Year	\$ 11,931

Three-year trend information for the annual pension cost (APC) is as follows:

Fiscal Year Ending	Annual Pension Cost (APC)	Actual Contribution Made	Percentage of APC Contributed	Net Pension Obligation/ (Asset)
2012	\$ 216,457	\$ 213,106	98.5%	\$ 12,433
2013	209,239	209,134	99.9%	12,538
2014	221,577	222,184	100.3%	11,931

The required contribution rates for fiscal year 2014 were determined as part of the December 2011 and 2012 actuarial valuations. Additional information as of the latest actuarial valuation, December 31, 2013, is as follows:

Valuation Date	12/31/2011	12/31/2012	12/31/2013
Actuarial Cost Method	Projected Unit Credit	Projected Unit Credit	Projected Unit Credit
Amortization Method	Level % of Payroll	Level % of Payroll	Level % of Payroll
GASB 25 Equivalent Single Amortization Period	26.4 years; closed period	25.5 years; closed period	30.0 years; closed period
Amortization Period for New Gains/Losses	30 years	30 years	30 years
Asset Valuation Method	10-year Smoothed Market	10-year Smoothed Market	10-year Smoothed Market
Actuarial Assumptions:			
Investment Rate of Return*	7.50%	7.00%	7.00%
Projected Salary Increases*	varies by age and service	varies by age and service	varies by age and service
*Includes Inflation at Cost	3.0%	3.0%	3.0%
of Living Adjustments	2.1%	2.1%	2.1%

**CITY OF WEST LAKE HILLS, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2014**

**E. Pension obligations (continued)**

Funded Status and Funding Progress

In October 2013, the TMRS Board approved actuarial changes in (a) the funding method from Projected Unit Credit to Entry Age Normal, (b) the post-retirement mortality assumptions used in calculating liabilities and contribution rates and in the development of the Annuity Purchase Rate factors, and (c) the amortization policy. These actuarial changes were effective with the December 31, 2013 actuarial valuation. For a complete description of the new actuarial cost method and assumptions, please see the December 31, 2013 *TMRS Comprehensive Annual Financial Report (CAFR)*.

The funded status as of September 30, 2014, the most recent actuarial valuation date, is as follows:

Actuarial Valuation Date	Actuarial Value of Assets	Actuarial Accrued Liability (AAL)	Funded Ratio	Unfunded AAL (UAAL)	Covered Payroll	UAAL as a Percentage of Covered Payroll
	(a)	(b)	(c)	(d)	(e)	(f)
			(a) / (b)	(b) - (a)		(d) / (e)
12/31/2013	\$5,476,369	\$6,658,591	82.2%	\$1,182,222	\$1,683,666	70.2%

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

Actuarial calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation, and reflect a long-term perspective. Consistent with that perspective, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. The schedule of funding progress, presented as Required Supplementary Information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability of benefits.

Supplemental Death Benefit Fund

The City also participates in the cost sharing multiple-employer defined benefit group-term life insurance plan operated by the Texas Municipal Retirement System (TMRS) known as the Supplemental Death Benefits Fund (SDBF). The City elected, by ordinance, to provide group-term life insurance coverage to both current and retired employees. The City may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death); retired employees are insured for \$7,500; this coverage is an "other postemployment benefit", or OPEB.

**CITY OF WEST LAKE HILLS, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2014**

**E. Pension obligations (continued)**

The City contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to pre-fund retiree term life insurance during employees' entire careers.

The City's contributions to the TMRS SDBF for the years ended 2014, 2013 and 2012 were \$1,617, \$1,455 and \$1,263, respectively.

**G. Accounts Payable and Accrued Liabilities**

Accounts payable and accrued liabilities reported by the governmental fund at September 30, 2014 were as follows:

	General Fund
Accounts payable	\$ 350,750
Escrow deposits	240,800
Other liabilities	26,020
Total accrued liabilities	\$ 617,570

**G. Risk management**

The government is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. During the year, the City purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year and no settlements exceeding insurance coverage for each of the past three fiscal years.

**H. Long-Term Liabilities**

Revenue Bonds

On June 26, 2012 the City issued revenue bonds for the purpose of acquiring, improving, repairing, renovating, enlarging, extending and equipping the City's wastewater system. The bonds are payable from and secured by a first lien on and pledge of the net revenues of the wastewater system. Revenue bonds are direct obligations of the City for which its full faith and credit are pledged. Repayments of revenue bonds are from wastewater revenue from customers located within the City. The City is not obligated in any manner for special assessment debt.

**CITY OF WEST LAKE HILLS, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2014**

**H. Long-Term Liabilities (continued)**

Details of Wastewater Fund long-term debt obligations outstanding at September 30, 2014 are as follows:

**Business-type Activities:**

Type	Sale Date	Original Borrowing	Interest Rates to Maturity	Final Maturity	Outstanding 9/30/14
<b>General Obligation Bonds:</b>					
Revenue Bonds, Series 2012	2012	\$ 16,180,000	3.25%	2032	\$ 15,840,000
Total General Obligation Bonds					<u>\$ 15,840,000</u>

Changes in Wastewater Fund long-term debt for the current year are as follows:

**Business-type Activities**

Description	Balance 10/1/13	Additions	Reductions	Balance 9/30/14	Due in One Year
Bonds Payable					
Revenue Bonds, Series 2012	\$ 16,035,000	\$ -	\$ (195,000)	\$ 15,840,000	\$ 255,000
Business-type long-term liabilities	<u>\$ 16,035,000</u>	<u>\$ -</u>	<u>\$ (195,000)</u>	<u>\$ 15,840,000</u>	<u>\$ 255,000</u>

The annual debt service requirements for the Wastewater revenue bonds are as follows:

Year Ended September 30,	<u>Business-Type Activities</u> <u>Bonds Payable</u>	
	<u>Principal</u>	<u>Interest</u>
2015	\$ 255,000	\$ 514,800
2016	315,000	506,513
2017	385,000	496,275
2018	460,000	483,763
2019	530,000	468,813
2020-2024	3,855,000	2,036,125
2025-2029	5,995,000	1,261,975
2030-2032	4,045,000	263,086
Totals	<u>\$ 15,840,000</u>	<u>\$ 6,031,350</u>

**CITY OF WEST LAKE HILLS, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2014**

**H. Long-Term Liabilities (continued)**

Governmental Fund Long Term Obligations

As of the current year ended September 30, 2014, the City did not have any governmental activities long-term obligations related to bonds payable and/or notes payable. The City was not obligated in any manner for special assessment debt related to its governmental activities. However, the City's governmental activities did have long-term obligations at year end related to compensated absences and its net pension obligation.

Details of the governmental activities long-term obligations as of September 30, 2014 are as follows:

<b>Governmental Activities</b>					
Description	Balance 10/1/13	Additions	Reductions	Balance 9/30/14	Due in One Year
Compensated absences	\$ 209,030	\$ 70,055	\$ -	\$ 279,085	\$ -
Net pension obligation	12,538	-	(607)	11,931	-
Governmental activities long-term liabilities	<u>\$ 221,568</u>	<u>\$ 70,055</u>	<u>\$ (607)</u>	<u>\$ 291,016</u>	<u>\$ -</u>

**I. Interfund receivables and payables**

The composition of interfund balances/advances as of the year ended September 30, 2014 is as follows:

Receivable Fund	Payable Fund	Amount
General Fund	Wastewater Fund	\$ 2,000,000
Total		<u>\$ 2,000,000</u>

The City's General Fund lent a total of \$3,150,000 to the Wastewater Fund during 2008. This includes a payment in kind calculated to be the total loan amount times an interest rate tied to the benchmark rate as established by the Lone Star Investment Pool. The Wastewater Fund repaid \$1.15 million during fiscal year 2012/2013. The repayment of the remaining \$2 million is set to begin in 2026 subject to available funds.

**J. Contingencies**

Amounts received or receivable from granting agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount of expenditures which may be disallowed by the grantor cannot be determined at this time, although the City anticipates such amounts, if any, to be immaterial.

The government is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the government's legal counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the government.

**K. Subsequent events**

The City has evaluated subsequent events through January 23, 2015, the date of the audit report. The City is not aware of any subsequent events that materially affect the financial statements as of that date.

To the Honorable Mayor, Members of the City Council and Citizens of  
the City of West Lake Hills, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of West Lake Hills, Texas as of and for the year ended September 30, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated January 23, 2015.

### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
